Headkube

MUSIC PRODUCER AND LIVE PERFORMER

BIOGRAPHY

Headkube is an Italian music producer and live performer born in Turin in 1994. After studying classical music for several years he began to approach electronic music listening to various artists such as The Chemical Brothers, deadmau5, Eric Prydz, Paul Kalkbrenner, Justice, Cristoph, Third Party and many others.

He started producing electronic music back in 2018, modeling and creating his own sound style which tends towards progressive house with techno influences. His tracks and Live are able to easily cross the two genres reaching a wider range of sounds and melodies that blend perfectly to create new sonic structures.

Headkube began gaining international recognition in 2020 with the release of some tracks and an album on the Californian label SLC-6 Music, obtaining the support of international names such as Armin Van Buuren, Gai Barone, Kollektiv Turmstrasse and many others.

The following year he debuted on the prestigious Third Party's label Release Records, releasing a single and an EP that reached the top of Beatport's Progressive House charts. The support he received highlighted his artistic, performance and production talents and he gained the attention and support of some of the biggest names in the world such as Above & Beyond, Third Party, Austin Kramer, DJ Ruby and many others.

In 2022 he released an EP on Grum's Deep State UK label considered one of the most iconic and influential progressive house and trance DJs in the world and was included in his Deep State radio program. The single Rainfall instead was added to the official playlist of Tomorrowland One World Radio.

Headkube plays Live with different synths and controllers creating electrifying sounds, strong beats and ethereal melodies and has already shared stages and clubs with international artists such as Pete K, Matt Nash, GVN, Corey James and the Third Party to name a few.

He has brought his Live performances to various European Clubs and Festivals such as the legendary Ministry of Sound in London, ADE Music Festival in Amsterdam, Eventim Olympia in Liverpool, Turbina Club in Budapest and has been invited to play at Burning Man (Virtual Edition), in the Galleria dei Re (Egyptian Museum of Turin) and at TEDx in Bologna.
